

curve  $f(x,y)$ ,  
where  $y$  fixed

Iterated integral

area of cross- section  
 $= \int_a^b f(x, y) dx$

volume  
of

$$= \left[ \int_a^b f(x, y) dx \right] dy$$

volume  
of

= volume  
of

$$\iint_R f(x, y) dA = \int_c^d \left[ \int_a^b f(x, y) dx \right] dy$$

Iterated integral
